Superintendent

Timothy J. Trivett, Chairman
Colonial Beach School Board

Dear Families,

A safe and productive environment is key to establishing the foundation toward academic achievement. With this in mind, the Student Code of Conduct was prepared to provide families with immediate access to the policies and procedures established by Colonial Beach Public Schools to ensure all students are offered an appropriate learning environment. As superintendent, I encourage all parents to read, understand, and familiarize yourself with the expectations stated within this handbook. As principals and teachers will familiarize students with the expectation of the Code of Conduct, I strongly encourage students to read the document as well.

As a reminder, all school rules apply when students are present on school grounds, before school, traveling to and from school, riding the school bus, participating in school extra-curricular events, representing the school and or under the supervision of school personnel.

Again, I encourage you to read and review the Student Code of Conduct with your child(ren) and refer back to it frequently throughout the year.

We look forward to a safe, and productive 2019-2020 school year.

Dashan Turner, Ed. S
Superintendent
